Respected Sir/Ma'am

Shiva Consultancy Group is a mainly into management consultancies to the corporate across India and stood since last four years as one of top 30 stratetegies management consultancy firms of India. We are focused mainly into simplification, commercialization of technologies to make it sustainable in serving the mankind & society.GPS technology is a fast growing industry. New architecture and multiplying software platforms are forcing the application development to undergo a massive change in existing technologies and yet the pressure to building a robust & agile application is growing continuously. In today's situation every school & parents are heavy deep concerned for kids & students safety. Considering the several stories in recent parts.

To address the problem we come up with unique but tasted solution for the same. That is GESIC (GPS enabled student identity card) and if you are looking out for best tracking results, this is the choice for you. You can even download and print reports in MS excel and PDF format.

STUDENT IDENTITY CARD (with access and location tracking facility)

You can get accurate location of your child on map. You can see live location and monitor live activities on the go your mobile and laptop or PC. Our product also provide SOS calling function. In addition you can create Geo-Fence as well. Our system also has an interactive history play-back option on the map, where you can play the history of the child's journey for you selected dates. Additionally, There are many reports available to view live on PC and Mobile. You can even download and print reports in MS Excel and PDF Format.

DESCRIPTION of the Product

This Product is manufactured in India and if you are looking out for the best tracking results, this is the choice for you. It is all pre-configured and ready to use product. Installation is so easy that you can do it yourself in few minutes. Also you need not worry about the safety of your student or children any more as, **GPS Enabled Student identity card** is made possible and easy with this amazing GPS tracker. Now, make full use of the device in India to keep track your children and ensure they are safe. The GPS-based student identity card is very easy to use and you need absolutely no special knowledge or expertise to start using device
